## PROFESSIONAL EXPERIENCE

### SAP Global Events & Experience Centers

November 2025 - present

Co-executed end-to-end design and asset production workflows for SAP's premier flagship global experience centers and major trade exhibitions, including Sapphire 2026, Hannover Messe, and NRF 2026.

Berlin, Germany

Collaborated closely with cross-functional global teams (Development, Brand, Sales) to maintain enterprise brand integrity and narrative alignment for hybrid audiences exceeding 15.000+ attendees.

Designed and delivered internal design assets, interactive prototypes, and presentation materials using Figma, Adobe CC, and MS Office.

### SAP Master's Thesis Research: 'Closing the Innovation Loop'

March 2026 - August 2026

Conducting qualitative research across corporate stakeholder networks to diagnose and isolate systemic communication bottlenecks and information asymmetries, as part of the 2026 SAP SIX's Strategic Goals.

Berlin, Germany

Developing a strategic framework to optimize corporate feedback channels, aiming to increase structural transparency in decision-making processes.

Synthesizing operational data from various design methodologies across multiple business units into actionable steps and frameworks.

### REDRUM Creative Strategy & Production Intern

February 2024 - May 2024

Conducting qualitative research across corporate stakeholder networks to diagnose and isolate systemic communication bottlenecks and information asymmetries, as part of the 2026 SAP SIX's Strategic Goals.

Arnhem, The Netherlands

Developing a strategic framework to optimize corporate feedback channels, aiming to increase structural transparency in decision-making processes.

Synthesizing operational data from various design methodologies across multiple business units into actionable steps and frameworks.

### Foodpairing AI Marketing Assistant

2022 - 2023

Managed multi-channel B2B/B2C marketing initiatives, leveraging incoming data to optimize campaign and brand performance.

Ghent, Belgium

Reported market trends and designed visual communication assets using Adobe CC to support sales enablements.

Adobe Creative Cloud (Illustrator, Photoshop, After Effects, Premiere Pro InDesign), Figma, Miro, MS PowerPoint, MS Excel, MS Word, HTML, CSS, JS.

### AI Platforms

Google Gemini, Notebook LM, Claude.

### Languages

Dutch (Native, C2), English (Fluent, C1), French (Intermediate, B2), German (Good, B1, taking language classes)

## EXTRACURRICULAR

### VBKI Networking & Mentoring Program

Website: <https://vbki.de/en/>

An individual learning process combined with an exchange of experience and knowledge between two people. The mentors involve the mentees seeking solutions and pass on relevant experience.

### START Berlin

Website: <https://www.start-berlin.com/>

Berlin's largest student-run entrepreneurship non-profit. As part of the Global Start Network, offering students direct access to the startup world.

### Start up Initiative: CLIQ

Website: In development

The development of modular organizational equipment made via festival waste. A systematic look at how direct reuse of materials can be beneficial to both the production of products and the expense of the process.
